

# BlueLounge Cable Box review

---

**Jamie Balfour May 4th 2012**

Today I am going to review the BlueLounge CableBox. Firstly, it is nothing more than a box with slots for wires to go through. And it's aim is to tidy up wiring. They cost around £25, which is a bit steep for nothing more than a box.

However, and this is a big however, the CableBox, despite being nothing more than a box, is getting a 10/10 from me because of the fact that has worked how I wanted it to. Take a look at the pictures to see how it has changed my wiring system (I am still in the process of tidying my wires, but you can see how the BlueLounge CableBox has changed it all so far!):
